McSherrystown the Scene of Large Gathering of Adams County Public School Teachers. Pupils Sing and Give Play.

One hundred teachers attended the third and last rally of the year held on Saturday in McSherrystown. Special features, including a play and music by the school children, helped make the meeting a decided success.

Many teachers held sessions in separate rooms at the public school buildings. The Rural Teachers' Association elected the following officers: president, C. E. Tawney; vice president, J. A. Stinson; secretary, Alice A. Miller; treasurer, John M. Wideman. At the two morning meetings topics of importance were discussed by Dr. Becht, secretary of the State Board of Education, Dr. Weber, of State College, and various teachers. The Monticellians' children sang.

McSherrystown and Conewago townships teachers in the basement of St. Mary's Hall, the large Catholic institution. The afternoon meeting opened with the address of welcome by Rev. Fr. L. Aug. Hendter. Prof. W. A. Borgeson made the response. The lecturers made several addresses, the first was given by Rev. Fr. Hendter, who was mainly by the McSherrystown church and the children of Conewago township; and a two act playlet, "The Battle of the Books" was given by the children of the McSherrystown

Reunions were adopted thanks to Fr. Roudier for his services and for the use of the hall which was improved and greatly admired. The Mollat's orchestra was also thanked for its services.

COLD SPELL TO GIVE WAY

The most severe and protracted spell of many years probably will be broken this week, and the seasonal war will give way to the more amiable, long-running.

Since the last week in December
saw for short periods, in all the coun-
try east of the Rocky Mountains, re-
cords for extreme low tempera-
ture have been set. While it was ex-
tremely cold in the East, however, tem-
peratures were above normal on the Pa-
cific Slope. At times below zero
were recorded as far south as Tennessee,
Arkansas, Northern Texas and Okla-
homa, and frosts were recorded in
Miami, Florida, where they re-
curred.

not promise there will be no more waves this winter, but they predict the next week or 15 days will be the forerunner of a spell of moderate weather.

The weather map of the Northern Hemisphere as it looks today shows a general change toward moderation, and the Weather Bureau is forecasting warmer weather from now on.

There are no indications at this time of a general storm to cross our coast. The possibilities for the
